EXPERIENCE

THE IRON YARD – SOFTWARE DEVELOPMENT
2017

- Planning and developing various types of projects which implement different frameworks and languages. Full-stack coursework.
- Technologies Used: HTML, CSS, JavaScript, Node.js, React, and Redux.

HIGH SCHOOL ART TEACHER FOR LISD
2015-2017

- Communicated with parents, staff, and students through phone, digital, and face-to-face means.
- Helped students advance in skills in the subject matter; taught through visuals, practice, and discussion.
- Worked with groups or alone to accomplish goals as set by LISD or The Colony High School.
- Group and one-on-one mentoring.
- Facilitated discussion and gave constructive criticism.
